mirrors

De los repositorios de bitbucket se hace mirror sobre el particular.

- generar Settings → Security → Access Tokens
- hasta un año de validez
- para que gitea lo pueda usar:
 - user: x-token-auth
 - token: el token

Access token rotated

Your access token: "g.matebcn.eu"

Record this token somewhere secure, it can't be viewed or retrieved once you close this window.
